

JAMES TOZIER

~Illustrator~

20 Cooper St, Apt 149, Waltham, MA 02453

I'm a versatile Illustrator with extensive experience utilizing the Adobe Creative Suite to create print and digital deliverables for a wide array of clients. After four years as a Graphic Designer in the Charleston, SC area, I took a five year hiatus to pursue an opportunity in Art Education at the High School and Middle School level in Denver, Colorado. I've since resumed my Freelance career for the past four years, as well as relocated back to the East Coast in Waltham, Massachusetts.

Praise that I have received from clients includes: a willingness to openly and clearly communicate, a prompt delivery of results, an ability to quickly ascertain what visuals could best lend themselves to a project, and a capacity to adapt to whatever graphical style or process is required to complete a task.

It is my professional goal to lend my abilities to a dynamic and creative team; where I believe I can not only grow and improve, but also elevate the capabilities of those around me.
